Parent's Corner

Summer Vacations are just round the corner. To keep your little ones indoors in the sweltering heat and to utilize their time with constructive and creative activities,

we have designed activity based home assignment which aims to observe how far the children have understood the concepts already taught in the class also to develop their understanding by exploring the world around them. While the child works on the given task, support him/her in such a manner that it builds responsibility and ownership towards the task. DO NOT DO the task for your child. This kind of support will make your child feel empowered.

Be a Friend: Play games with your child like - Ludo, Carom-board or scrabble.

Explore Nature: Encourage your ward to wake up early in the morning and take him/her for walk. Count trees, cars, stones, flowers, etc. while going for a walk.

Sharpen Memory: Put a few things on a tray show the tray to your child for a while and then cover the tray. Ask your child to name the objects which were on the tray. This activity will help enhancing the memory and vocabulary of your child.

'Books Our Best Friends'

Reading time : Reading stories enhances Language and Vocabulary development. Make bed time reading a regular practice with your child. After reading stories ask questions like "What did you like in the story. Help your child to narrate the story in their own words. Also encourage your child to read picture dictionary.
